Permissions

User permissions are granted on an individual user basis as part of the [User authorization flow](#).
Read our [permissions documentation](#) for information about specific permissions.

Changes to permissions will be applied to all future installations. Current users will be prompted to accept any changes and enable the new permissions on their installation.

Repository permissions

17 selected

1 mandatory

Repository permissions permit access to repositories and related resources.

Actions

Selected

Access: Read and write

Workflows, workflow runs and artifacts. [Learn more.](#)
